TX5C DXpedition News (March 6, 2008) - We are on Clipperton Atoll! It's 0133z as we write this. We had a successful landing and have loaded quite a bit of our camp gear to the island. Our base camp is set up and we are all tired but full of enthusiasm! In the morning we will begin the construction of our operating stations on the north side of the island exactly where we had hoped to be able to land. We are excited about this as this location will provide the best paths for us to work the world. We will update this page in the morning in more detail but we wanted you all to know we are safe and are on the island. [TX5C web site]

FR/G Glorioso Islands AF-011 - After many years of effort the permission has been granted. This operation can take place, probably early in May, to start between May 5th to 9th for some weeks. Spratly Update (March 22-30) - We now have Navy permission. Information is posted on the website (www.n1urspratly.com/). We will be using the call sign 9M6/N1UR for both stations. We will be updating the site regularly as we are getting closer. Not sure if we will be able to post updates from Spratly itself but we will try. 73, Ed N1UR. [NG3K]

Tris (VP8ROT / MM0TJR) will leave Rothera base in about one month unfortunatly, but the new radio officer is also an amateur radio operator. Ian, G0VZM is expected to operate from VP8ROT. [F5PFP]

2008 is also the 70th anniversary of the year when the Cranwell Amateur Radio Transmitters Society (CARTS) became the RAF wide RAFARS and the G8FC licence was issued as the Voice of the Society so the Society's aim is for a major on-air presence to mark all those special anniversaries. On April 1st, we will attempt to activate every RAF, RFC and FC call sign we have plus every GB-RAF SES we can get. In addition all the Area Callsign holders, affiliated Clubs and ATC formations are invited to participate. We hope to plan something similar in combination with the RAF Cosford Air Show on June 1st which has the 90th anniversary as its theme. Confirmed participants for April 1, 2008 (those that are also AOTA activations will say so on-air):
GB90RAF and G8FC / G8RAF from RAF Cosford (RAF celebration).

We hope for a very special QSL card for GB90RAF, but for the rest of the Society Stations we plan an individualised card with a common picture and layout. There is no formal QSL management leader for this event because we expect many variations and we want everyone to have their best shot and have a fun day.
